About This Game

Sometimes all you need is to change the perspective.

You will skip between dimensions and challenge your imagination.
Somewhere between 2D and 3D, you will have to find creativity to solve the puzzles.

It is a brilliant game.. but it's just our perspective :)

Very nice perspective based puzzle game. I always enjoy games that make you think in a different way, and this one is no exception. Very well polished, no bugs, and very enjoyable. I definitely recommend this game!
